

There have been a lot of recent developments here in LEA Improvement, such as the announcement that we are hosting workshops for districts in year 1 and year 3 of District Improvement in March 2008 in Indianapolis. We have also started the process of adding curriculum coaches for districts in order to assist with the mapping initiative.

We will continue to expand our assistance with the mapping process during the summer of 2008. Dr. Heidi Hayes Jacobs will be assisting districts with unpacking the State standards, beginning the mapping process and clearly understanding the required components of maps. Participants will have lots of opportunities to practice during the workshop.

On behalf of the LEA Improvement, Title I Team, if you have questions or concerns related to LEA Improvement please contact our office at (317) 234-6014 or jwolf@doe.in.gov.
